2025 was another busy year at WCIRWA. The rain that we received throughout the year was very welcoming and helped maintain our levels in our wells. We are continuing to look at ways to improve our system to provide quality service to you, our customers.

We are pleased to announce that our new Boyer water treatment plant is now complete and in operation. This project started in the spring of 2024 and was finished in December 2025. We appreciate your patience and support throughout the construction process. Projects of this scale can be disruptive, and your cooperation helped make this improvement possible. This new facility increases reliability and helps ensure safe drinking water for our community now and in the future.

Please feel free to reach out to me if you have any questions as my door is always open.

Jason Meredith, Manager

Please Note: Starting in January 2026 the format of our utility statements changed. Contact our office with any questions about your charges & fees. Please avoid the use of staples, tape, post-it notes, stickers, etc when sending your payment. This slows the payment processing.
